

Sample Tracking Map

This is how your M-Track tracking software would be displayed in real time using online mapping applications through your computer.

The screenshot displays the M-Track software interface. At the top, there are tabs for 'Information', 'Map', 'Picture of object', and 'Triplog'. Below the map, there are control buttons for 'Update Position GSH', 'Put unit in alarm', 'Turn off alarm', 'Update Position GPS', and 'Update Cell ID'. A 'Status / Response from unit' section shows a list of messages such as 'Request Neighbourhood Cell Info', 'Update position GPS', 'Alarm (On/Off)', and 'Finder frequency'. At the bottom, there is a table of 'Last positions' with columns for time, GPS coordinates, speed, and distance.

Last positions	14.07.2009 - 14.10.2009	Multi	Amount	LO	Update filter
07.10.2009 02:47:57	GPS N 52.593275 W -3.841667		168,73°	0,1 Km/h	
07.10.2009 01:47:56	GPS N 52.593288 W -3.841723		46,06°	0,1 Km/h	
07.10.2009 00:47:54	GPS N 52.593435 W -3.841657		34,49°	0,2 Km/h	
06.10.2009 23:47:52	GPS N 52.593488 W -3.841498		13,96°	1,1 Km/h	
06.10.2009 22:47:50	GPS N 52.593370 W -3.841438		101,26°	0,1 Km/h	
06.10.2009 21:47:48	GPS N 52.593310 W -3.841635		33,67°	0,3 Km/h	
06.10.2009 20:47:43	GPS N 52.593393 W -3.841580		43,62°	0,2 Km/h
